Department of Health Services Children's Medical Services Network (CMS Net) - Information Bulletin # 31

The November Change Cycle was implemented on Sunday, 11/24/02. Following is a list of changes:

1. ICD-9 Code Update: Update the ICD-9 Diagnosis Code table with the October 2002 version. Please refer to the attachment which lists all new ICD-9 codes and subclassification additions.
2. Narrative Flag: Add the ability to flag a patient narrative as entered in error (if not corrected on the same day). The narrative flag allows the CMS Net State System Administrator to mark the record as entered in error. The narrative will not be deleted, but an error flag, reason flagged, who flagged the record, and the date flagged will autopopulate in the narrative sheet with the existing narrative. The Contact the Help Desk to set or remove a Narrative Flag on a patient records.
3. Registration Display: Add the ability to search for a patient record by County on the Registration Display Patient ID screen.
4. Paneled Provider List: Remove the PANEL DATE from the header of the Paneled Provider List. This request was to clean-up the report header for the Paneling and Approvals function.
5. Paneled Provider screen: Sort the search results in alpha order for a Panel Date only search.
6. Pending Transfer Screen (CMSPT-10): Modify the NOA Effective Date to allow future dates.
7. CCS Application: Add the Birthplace (County) to the CCS Application form.
8. Referral / Transfer Date: Modify the Referral/Transfer date field to allow the user to retain the same Referral date if Case Status is changed from DENIED or NOT OPEN to PENDING / REOPEN PENDING.
